TUESDAY, NOVEMBER 12

Thanksgiving Proclamation.

To the end that public acknowledgment may be made to God for His unnumbered mercies, I do hereby appoint Thursday, the 28th day of November, 1889, as a day of thanksgiving, and I would remind the good people of this commonwealth that no expressions of gratitude can be more acceptable to Heaven than are gifts from their abundance in aid of the poor.

In testimony whereof, I hereunto sign my name and cause the seal of the state to be affixed at the city of Salem, this 4th day of November, 1889. SYLVESTER PENNOYER, Governor.

BY THE GOVERNOR: GEO. W. MCBRIDE, Secretary of State.

THE packing trade is all right until it reaches the jury system, and then it is time to interfere.

SETH Low, the new president of Columbia College, gets the largest salary paid any college officer in the Union. Seth Low, "I come high."

THE American Public Health Association declares that many trees in a city are a source of disease. Since the typhoid outbreak in New Haven the people begin to believe that too much shade makes the liver take umbrage.

HIGH license in Oakland has sent thirty-eight gin mills out of the business since the 1st of September. Ordinary people would consider this a decided gain for the cause of temperance, but the cranks probably think it is only temporizing with the evil and parleying with the dreadful foe.

THE ordinance recently passed in Chicago, providing for women inspectors to look after workshops and tenements where women are employed, and see that sanitary measures are taken to keep the rooms in a healthy condition, has been appointed by Mayor Cregier.

THE centennial of the visit of President Washington to Boston and New England in 1789 was celebrated by a meeting in the Old South Meeting-house, Boston, when a movement was started to raise \$5,000 for the erection of a suitable monument over the grave of Washington's mother at Fredricksburg Virginia.

MR. CLEVELAND is reported to have said that the recent elections in Ohio and Iowa were a vindication of his policy. If he did say it he must be the most easily satisfied man on earth. To regard state elections, mixed up with prohibition and Sunday laws and determined by personal considerations and local issue, as a vindication shows conclusively that Mr. Cleveland's bump of self-esteem retains its normal size.

THERE has been invested in Tacoma realty thus far this year about \$12,000,000; in building about \$5,000,000; in the improvement of the Northern Pacific facilities another million; in street improvements including street railways and the Light and Water company's extensions and additions another million; in manufacturing enterprises, of which nearly fifty have been established, there has been invested \$3,000,000; total \$22,000,000.

BECAUSE of local questions which jangled party lines in some of the November voting states, the democrats have "a right to howl." It takes very little nowadays in the shape of victory to make democrats supremely happy, and it looks like a pity to grudge them the meagre political joy which they are now taking with such yum yum unction.

THINK of a clock with a face 16 1/2 feet in diameter. San Francisco is going to have one like that and when it is up the man who gets home at 3 o'clock in the morning under pretense of believing the time to be 10 p. m., will simply be "a liar by the clock" and a self-made pseudologist. By the way, the minute hand will have to hum to get around that face twelve times a day.

AFTER all it doesn't seem to be necessary to inflate a balloon every time one desires to go up with it. A little girl in Chicago swallowed a toy balloon a few days ago, and immediately went above.

STORY OF THE WILD WEST.

And Fire-Side Chats, by Hon. W. F. Cody, (Buffalo Bill).

Buffalo Bill is the Napoleon of American Scouts and Indian Fighters. He is one of the greatest and most versatile characters that this or any other country has ever produced. He has won brilliant success and renown in all his undertakings. He is not only the greatest American frontiersman, but he is also an educated man. He is familiar with the entire history of our country, and has made a special study of the lives and grand achievements of the great pioneers, whose deeds of daring have won the admiration and applause of the whole world. He is better qualified than any other man to write the great standard history of American Pioneer Life, for he helped to make that history, and his own adventures constitute the most brilliant and thrilling portions of it. His peculiar fitness for the work that he has so successfully accomplished was a justly recognized by the Prince of Wales, Hon. Wm. E. Gladstone, Hon. John Bright, and other distinguished Englishmen, when they earnestly requested him to write the "Story of the Wild West." In this request they were joined by nearly every celebrated general in the American Army, who, knowing Buffalo Bill intimately, knew that he was the man to write this Grand History. It is a book that every American can feel proud of. He not only tells of his own marvelous achievements, but also those of his comrades and other great frontiersmen, including the thrilling story of the Custer Massacre, General Crook's campaign and a thousand of other exciting incidents, and lastly, a description of his wonderful career and success in exhibiting his "Wild West Show" among the Crown Heads of all Europe. Buffalo Bill's pen is as vigorous as his rifle was unerring, and his book will remain forever the great standard history of pioneer life in America and should receive a glad welcome in the home of every true and patriotic American. This great historical book contains over seven hundred pages and nearly three hundred spirited engravings. The well-known publishers, The History Co., 723 Market St., San Francisco, are the authorized General Agents. Agents and parties who desire to sell this book can secure an agency and liberal terms by addressing the History Company. We call attention to the advertisement in another column.

An Extraordinary M. P. Mr. H. Kavanagh, who is lying seriously ill in London, and who sat for many years in parliament for the county of Carlow, was, physically speaking, the most extraordinary man that ever sat in the house of commons. We have had, and still have, blind men in parliament, and deaf men are more common than the constituents suspect. Mr. Kavanagh had all his senses, but he was without arms and legs. He had to be carried into his seat in parliament. He addressed the house always sitting, and was allowed to vote without going into the lobby. He was by no means a silent member. He spoke frequently on Irish questions and sat on a number of select committees—a special list having been constructed to raise him to the level of the corridor in which the committee rooms are placed.—Dundee Advertiser.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Write One Hundred Dollars reward for any case of catarrh that cannot be cured by taking Hall's Catarrh Cure. Price 75c per bottle. Sold by all druggists. F. J. Cheney & Co., proprietors, Toledo, O.

Wonderful Fish. One of the most wonderful of fishes is the one bearing the name of chlamodon niger, or the great swallower. The body is elongated, of nearly uniform thickness most of the length of the fish. The jaws are very long and fitted with sharp teeth, some of which seem to be reversible. The manner of feeding is to grasp a fish by the tail and proceed to climb over it with his jaws. As the captive is taken in the stomach and integument stretch out; the distended belly appears as a great bag. The fish will swallow another one six or twelve times his own size. This rapacity proves his own destruction sometimes, as the gas formed by the process of digestion makes a balloon of his stomach that brings the fish to the surface. As his habit is supposed to be 1500 feet below the surface, this is the only way he came to be introduced to the public through the three specimens now on exhibition in museums.—Pittsburg Dispatch.

While returning from an excursion the Sultan of Morocco had to cross a swollen river to reach Fez. The Sultan crossed safely, but twenty of his body-guard who undertook to swim the river on horses were swept down the stream and drowned.

A SCRAP OF PAPER SAVED HER LIFE. It was just an ordinary scrap of writing paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her more, bought another and grew better, fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole Druggist, Fort Smith. Trial bottle of this wonderful discovery free at Dan'l J. Fry's drug store.

Only policemen and stars are allowed to shoot on the streets of a well-regulated city. A tailor requires many yards to cover a man, but a burglar will cover him with a small revolver.

"Another wonderful discovery has been made and that too by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at Daniel Fry's drug store.

With Mr. Wansmaker's new scarlet stamp, every letter would be read before it left the postoffice. In case of the bond frauds distance lends enchantment to the ex-treasurer of the state. Necessity of bringing home a generous string of fish is the mother of invention.

Catarrh is a constitutional and not a local disease, and therefore it cannot be cured by local applications. It requires a constitutional remedy like Hood's Sarsaparilla, which, working through the blood, eradicates the impurity which causes and promotes the disease, and effects a permanent cure. Thousands of people testify to the success of Hood's Sarsaparilla as a remedy for catarrh when other preparations had failed. Hood's Sarsaparilla also builds up the whole system, and makes you feel renewed in health and strength.

Catarrh "I used Hood's Sarsaparilla for catarrh, and received great relief and benefit from it. The catarrh was very disagreeable, especially in the winter, causing constant discharge from my nose, ringing noises in my ears, and pains in the back of my head. The effect to clear my head in the morning by hawking and spitting was painful. Hood's Sarsaparilla gave me relief immediately, while in time I was entirely cured. I am never without Hood's Sarsaparilla in my house as I think it is worth its weight in gold." Messrs. G. B. Gibb, 1025 Fifth Street, N. W., Washington, D. C.
